

REMARKS/ARGUMENTS

Restriction to one of the following inventions is required under 35 U.S.C.121:

- I. Claims 1-16, drawn to updating the encryption/decryption module,
classified in class 713, subclass 191.
- 5 II. Claim 17, drawn to key exchange, classified in class 380, subclass 278.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated.

- 10 Because these inventions are distinct for the reasons given above and have
acquired a separate status in the art as shown by their different classification,
restriction for examination purposes as indicated is proper.

Response:

- 15 The Applicant has consequently amended the claims in the above Amendments to
the Claims section to elect the claims in Group I. Claims 1-16, drawn to updating the
encryption/decryption module, are elected as the subject matter to be examined in the
present application. Claim 17 is non-elected and therefore cancelled. Examination of
claims 1-16 is requested.
